

Sent 15/11/10

<!--StartFragment-->Dear Carol

I am writing to invite members of your Council along to our January Parish Council meeting, where the matter of Kettleburgh Pumping Station is to be discussed. I attach our July newsletter which gives the background to the problems that have been occurring over the last year or so.

Since July, we have been in contact with Anglia Water and the Environment Agency: we are expecting representatives from both organisations to attend out meeting on 12 January. As Cretingham is upstream on the River Deben, it is likely that any decisions made will have implications for Cretingham. A similar invitation has been sent to Brandeston PC.

Please forward this invitation to your Councillors. I will send you an agenda for the meeting closer to the date.
